SINGAPORE (Standard & Poor's) Dec. 1, 2015--Standard & Poor's Ratings Services today published its new criteria for rating investment holding companies, titled "Methodology: Investment Holding Companies." Follow the publication, we placed our ratings on all publicly rated companies falling within the scope of this criteria under criteria observation.

Following changes in rating methodology, credit rating agencies regulated under Regulation (EC) No 1060/2009, as amended, are required to immediately place credit ratings potentially affected by such changes "under observation" (see "Standard & Poor's Announces "Under Criteria Observation" Identifier For Ratings Potentially Affected By Criteria Changes," published May 7, 2013).

The ratings placed under criteria observation (UCO) are under review. These ratings have the UCO identifier listed in the Regulatory Identifier column on the individual issuer pages of Standard & Poor's online credit rating products.

Any rating changes prompted by the new criteria will be published in compliance with the regulation.

Standard & Poor's published a request for comment (RFC) in November 2014 on our proposed criteria for rating investment holding companies. For an overview of the main changes between the request for comment and the final criteria, see "RFC Process Summary: Methodology: Investment Holding Companies,"

published today.
